

AWWA Award Entry Form: Annual Missouri Section AWWA Sustainability Award

The “Annual MO Section AWWA Sustainability Award,” is an environmental award that recognizes Missouri projects that promote the sustainability of our most precious resource, clean water.

Preference is given towards projects that promote sustainable environmental benefits for water related projects. Qualifying projects may be related to source protection for surface water or ground water, reduction/elimination of pollutant discharges, waste management reduction, green infrastructure solutions, efficiency improvements, LEED projects, or water treatment improvements that equate to long term water quality sustainability. In general, projects that improve the environment and benefit public health may qualify. Preference is given to projects that demonstrate sustainability related to potable water. Wastewater, stormwater, recycling, reuse, and air quality improvement projects are all eligible depending on the impact the project has towards protecting and improving our water resources. Consideration given to triple bottom line impact.

Must have an AWWA membership for your project to qualify.

Please include any photos or other documentation to support evaluation of the project.

Applicant:

Organization Name: _____

Primary Contact: _____

Mailing Address: _____

City: _____ State: _____ Zip Code: _____

Phone: _____

Email Address: _____

AWWA Member Number (if known): _____

Deadline for Submission: February 14, 2025

Email form and other requirements to: sustainability@awwa-mo.org

Telephone: 816-318-7718

1. Please provide a brief description of your sustainability project?

2. Describe the goals of the project.
