

Fellow Water, Wastewater, and Stormwater Professionals,

On behalf of the MWEA and MO-AWWA Executive Boards, we hope this correspondence finds our membership, their families, and communities safe and healthy. It was our hope and desire that conditions surrounding COVID-19 would improve and allow our conference to commence in August 2020. Unfortunately, due to the increasing COVID-19 infection rate, employer travel restriction, and presenters' availability, we have been forced to cancel the rescheduled 2020 Joint Annual Conference.

For additional information please visit the MO-AWWA's ([www.awwa-mo.org](http://www.awwa-mo.org)) or MWEA's ([www.mwea.org](http://www.mwea.org)) website regarding cancellation of the conference and opportunities for continuing education credits.

We will continue to monitor and plan for the safest way to return to Margaritaville for the 2021 Joint Annual Conference from March 28-31, 2021 and remain committed to maintaining all of our services and outreach programs to ensure access to continuing education and critical training for our members. Thank you for all you do to keep the water flowing and we hope to see all our hardworking water and wastewater professionals in-person again soon.

Thank you for your understanding and stay safe!

Sincerely,

**Mickey Bernard**  
President  
Missouri Water Environment Association

Sincerely,

**Joel Ogle**  
Chair  
Missouri Section American  
Water Works Association
