

Fellow Water, Wastewater, and Stormwater Professionals,

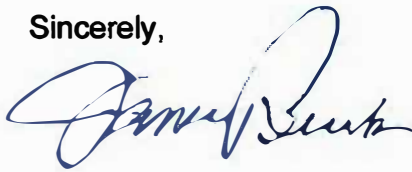

On behalf of the MWEA and MO-AWWA Executive Boards, we hope this correspondence finds our membership, their families, and communities safe and healthy. With careful consideration and constant monitoring, it was our hope and desire that conditions surrounding COVID-19 would improve and allow our conference to commence in March 2021. Unfortunately, due to the continued increase in COVID-19 infection rate, continued employer travel restriction, and presenters' availability, as well as the uncertainty of the vaccine distribution, we have decided to postpone the 2021 Joint Annual Conference.

For additional information please visit the MO-AWWA's (<https://awwa-mo.org>) or MWEA's (www.mwea.org) website regarding postponement of the conference and opportunities for continuing education credits.

We will continue to monitor and plan for the safest way to return to Margaritaville for the 2021 Joint Annual Conference from August 8-11, 2021 and remain committed to maintaining all of our services and outreach programs to ensure access to continuing education and critical training for our members. Thank you for all you do to keep the water flowing, and we hope to see all our hardworking water and wastewater professionals in-person again soon.

Thank you for your understanding and stay safe!

Sincerely,

James Burks
President
Missouri Water Environment Association

Sincerely,

Joel Ogle
Chair
Missouri Section American
Water Works Association
